

Year 5 - Autumn 2: 11/12/20

Set: Friday 11th November

Due: Tuesday 15th December 2020

English homework this week is grammar based and builds the children's work in class learning to identify and use Modal Verbs. There is of course also Spellings, Arithmetic and Mathletics homework too, as well as the poem to learn.

1. Reading Comprehension – Children to answer questions using Google Classroom.
2. The Spelling Sheet has detailed instructions – the spelling words (three times only) as well as the five sentences should also be written in the front of the homework book.
3. Arithmetic – writing out the tables is very straight forward, the most important part is to practise. Some children have more than quadrupled their starting benchmark scores from September! Practise, practice, practise – try [Hit The Button](#).
4. [Mathletics](#) – Please only complete the Activities that have been set as homework using scrap paper or your own rough book for the workings out. Remember if you want to do more, do as much LIVE Mathletics as you want.

Good luck and work steadily through the work over the seven days that you have to complete it.

Miss Mahon and Mr McInroy
