

26/11/21 Year 1 Arithmetic Homework

Solve the subtraction calculations by using different objects. You could even draw shapes to help you.

For example:

$$5 - 2 = 3$$

$10 - 7 = \underline{\quad}$

$9 - 5 = \underline{\quad}$

$8 - 3 = \underline{\quad}$

$18 - 4 = \underline{\quad}$

$17 - 6 = \underline{\quad}$

$15 - 9 = \underline{\quad}$

Challenge

Make up your own subtraction calculations using objects.

Extra challenge

Can you think of subtraction stories to tell a grown up?

For example: I went to the shop and bought 14 oranges. I gave 5 to my sister. How many do I have left?
